Double Patenting

1. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

2. Claims 26-29 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 26-29 of copending Application No. 09/939,454 and 09/940,148. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

Allowable Subject Matter

3. Claims 26-29 are allowable if overcome double patenting rejection as set forth as above.

4. Claims 51-64 are allowed.

5. The following is an examiner's statement of reasons for allowance:

Regarding claims 51-57, the prior art fails to teach an integrated circuit for use in a network switch comprising "a module logic circuit coupled to the memory and being enabled to cause the integrated circuit to function as one of an input layer chip, an

intermediate layer chip and an output layer chip," in combination with other limitations, as specified in the independent claim 51.

Regarding claims 58-64, the prior art fails to teach an integrated circuit comprising "a module logic circuit coupled to the memory, the module logic circuit being enabled to implement a single circuit selected from an input layer circuit, an intermediate layer circuit and an output layer circuit," in combination with other limitations, as specified in the independent claim 58.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phuongchau Ba Nguyen whose telephone number is 571-272-3148. The examiner can normally be reached on Monday-Friday from 10:00 a.m. to 2:00 p.m..
